

Healthy Cells = Healthy Life

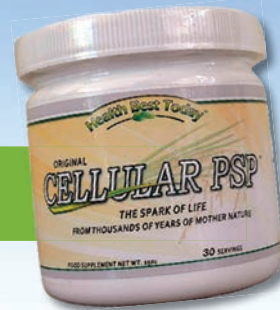

It's proven and it's a fact. Unfortunately, as simple as this may sound, millions of people around the world are experiencing poor health due to not having healthy cells. Thanks to Cellular PSP there is now an effective and easy way to nourish your cells.

Cellular PSP is the only natural functional food known to efficiently and effectively deliver a powerful combination of vital and essential nutrients to your body at the cellular level. By including Cellular PSP in your daily diet you provide your body's cells with exactly what they need to stay healthy!

Numerous Benefits of Cellular PSP

- Provides essential nutrients to the cells
- Enhances cellular energy (ATP) production up to 54%
- Promotes cellular detoxification
- Enhances the immune system
- Promotes antioxidant production
- Promotes oxygen in the blood through the entire body
- Enhances the digestive system
- Promotes overall well being, vitality and more!
- Promotes healthy skin cell renewal
- Improves skin texture by enhancing cell structure
- Increases energy
- Assists and supports muscle recovery
- Improves stamina & endurance
- Assists in reducing fatigue
- Enhances mental clarity, focus, and more!
- Not a stimulant
- Made with 100% natural ingredients - Low in calories!

Protect,

Repair & Renew

Your Body

at the

Cellular Level

Whether you're busy raising children, living or working in a high-stress environment, retired or simply looking for increased energy, **Cellular PSP is the answer!**

CELLULAR PSP is a unique functional food that provides the body's cells with vital and essential nutrients necessary for supporting optimal health. CELLULAR PSP is regarded by many scientists and doctors as one of the most powerful polysaccharide & polypeptide functional foods available on the planet today.

CELLULAR PSP comes from the Siam Valley of Thailand. This is a region of the world known for having some of the most fertile and unadulterated soils ever found.

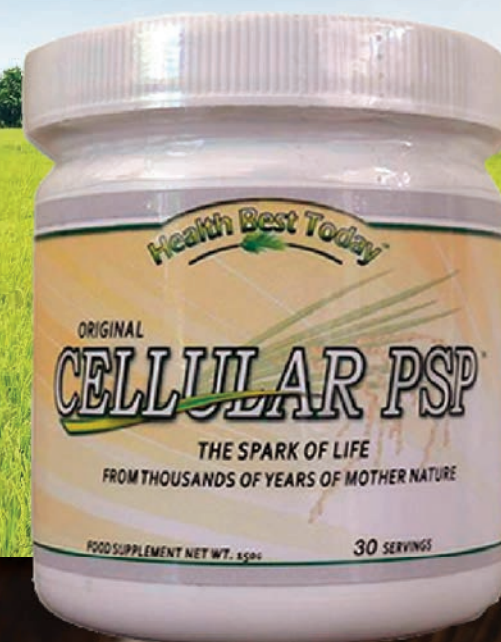

CELLULAR PSP is made with native strains of specifically rice grains that are harvested at the prime growth stage of life and at their highest nutrient content. These rice grains are so unique and pure they are patented (Thailand Patent #20399) and are exclusive to CELLULAR PSP. It is made by using a proprietary and innovative process of technology, which includes advanced bioactivation, and mechanical hydrolysis. This proprietary process extracts vital nutrients from the select rice grains and reduces the particle size for enhanced absorption to obtain the most bio-available essential nutrients necessary for supporting the cellular energy production process.

The polysaccharides & polypeptides in CELLULAR PSP are the only known Alpha-Glycans, which means the structures are so small that they can be assimilated 100% by the body and therefore, be totally absorbed into the cells. Other polysaccharides & polypeptides are Beta-Glucans, which are larger molecules and cannot be totally assimilated into the cells. It is the proprietary process used to manufacture CELLULAR PSP that assures CELLULAR PSP possesses the functional characteristics that are needed in order to be recognized by the body's cells.

CELLULAR PSP is readily assimilated and utilized by the body as a food, and works to enhance the body's natural healing process by stimulating the mitochondria to produce ATP (cellular energy) allowing DNA repair to occur, thus helping to reduce the impairment of glucose energy metabolism.

CELLULAR PSP is 100% all natural and pure. It is hypoallergenic, contains no dairy, wheat, gluten, sugar, chemicals, fillers, binders, artificial colors, artificial flavors, additives, or preservatives and is not genetically modified. (non-GMO)
